4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Maintain regional stormwater website and information library for reference and use by regulated MS4s and the general public in the SUA.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The stormwater website is successfully functioning as a public education tool based on the 3,309 total recorded "hits" during the current reporting period, including 126 hits to the online library. It should be noted that last years statistics were extrapolated from 3 months of data due to the timing of a server change. This years statistics are the most accurate and representative of real visitors to the site and should provide the baseline for comparison going forward.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

New information will continuously be added to the regional stormwater website and dated information will be removed. Content will continue to be restructured to facilitate improved ease of access. The website will be promoted as an educational tool for the general public and stormwater professionals in both the private and public sectors.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Secure exhibitor booth space and develop appropriate informational displays and handout materials. Efforts will be made to identify public events with reliably high attendance and complimentary objectives. Appropriately targeted materials and a stormwater display will be maintained and available for use at municipal events.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Exhibitor activities included the CNY Home and Garden Show on March 14 - 17, 2013 (attendance 28,500), and the Westcott Street Cultural Fair on 9/15/13 (attendance 8,000). Approx 2,132 informational handouts were distributed (various topics). An additional 53 people signed up to receive the electronic newsletter "Gardens and Gutters". While attendance at the home show was higher than the Westcott fair, interest in the message was significantly greater at the smaller venue.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

In place of holding a municipal training workshop targeting MCM6, information will continue to be posted on the CNY stormwater website and the need for future MCM6 trainings will be monitored and responded to appropriately throughout the 2013-14 permit year.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Extensive info relative to good housekeeping practices currently employed by MS4s in the SUA was compiled through interviews, informal surveys & review of previous MS4 Annual Reports as part of the Water Treatment Modeling program to assess compliance with permit requirements. Discussions with MS4 reps indicated that MS4s are largely implementing comprehensive good housekeeping programs, but some MS4s may not be capturing the full extent of their total efforts on paper.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

How many MS4s contributed to this report?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
